**3** Julia Child was devoted to the art of French cuisine. And starting in 1963, *The French Chef* single-handedly taught a nation how to cook well, eat well and drink well. Now today's chefs and celebrities delight in six of the most-beloved episodes from her groundbreaking series, offering insightful, funny and personal comments in unabashed appreciation of the first lady of cooking in **Dishing with Julia Child**.  
**Fridays at 10:30 pm and 11 pm**

---

**5** *World on Fire* is an adrenalized, emotionally gripping and resonant World War II drama that follows the intertwining fates of ordinary people in five countries as they grapple with the effects of the war on their everyday lives. Set in Britain, Poland, France, Germany and the United States, the events of the seven-hour series take place during the first year of the war. The stellar cast includes Academy Award®-winner Helen Hunt (*As Good As It Gets*, *Mad About You*), Sean Bean (*Game of Thrones*), Academy Award®-nominee Lesley Manville (*Phantom Thread*),  
**Sundays at 8 pm starting April 5t**

---

**7** **The Gene: An Intimate History** weaves together science, history & personal stories for a historical biography of the human genome, while also exploring breakthroughs for diagnosis & treatment of genetic diseases & the complex ethical questions they raise. *The Gene* is a major new four-hour documentary from Ken Burns and Barak Goodman, adapted from the award-winning book of the same name by Dr. Siddhartha Mukherjee. The series tells the story of the rapid evolution of genetic science from Gregor Mendel's groundbreaking experiment in the 19th century to CRISPR, and the hope that newfound powers to alter DNA with pinpoint precision will transform the treatment of some of the world's most complex and challenging diseases. The series also tackles the daunting ethical challenges that these technologies pose for humankind.  
**Part 1: April 7th at 7 pm; Part 2: April 14 at 7 pm**

*austin pbs Value*

Austin PBS is an essential resource for Central Texas and to remain such, we're evolving along with our changing community and media industry. The media industry is in the midst of fundamental change, challenging Austin PBS to better fulfill our mission of community engagement and impact, to deliver essential media that matters, and to expand our reach and relevance. In 2020, we're addressing that challenge more boldly than ever before. In mid 2020, we are moving to a new facility at Austin Community College's Highland Campus — retooling for the changing landscape of what "broadcasting" and "media" means. This move allows Austin PBS to be more visible, more accessible, more flexible. The new studios will allow us to welcome our community of viewers and members in new ways and expand the range of services we are privileged to deliver.
