What do science lessons and family bonding have in common? For Patrick, Lucinda and Naomi Stanton, the connection comes from their time together at the Ruff Ruffman Family & Community Learning workshop.

The Stanton's participated in this four week series along with other area families. Designed to spark STEM (Science, Technology, Engineering, Math) interest in young children, the workshop also empowers parents like Patrick and Lucinda to support their child's education both at school and home.

"With the four weeks of science projects and doing things and meeting different people, Naomi learned a lot. It was awesome!" Patrick's observation of his daughter's time at the Ruff Ruffman workshop is a testament to what a valuable experience these sessions are for kids and parents alike. Get the full story at klru.org
